

Supporting Patients

We are proud to offer a large number of [clinical trials](#) to patients with all types and stages of cancer. At any given time, we have up to 200 clinical trials in progress for adults age 18 and older.

The trials range from those in the initial stages of set-up, to trials that are open for patient enrollment, as well as trials that are closed to enrollment and awaiting analysis of the final results.

We support our [oncologists](#) and other health professionals in conducting clinical trials in 11 disease sites:

- Brain and nervous system
- Breast
- Gastrointestinal
 - Colon/rectum
 - Esophagus
 - Pancreas
 - Stomach
- Genitourinary/Renal
 - Kidney
 - Bladder
 - Prostate
- Gynecology
 - Cervix
 - Ovary
 - Uterus
 - Vagina

- Head and neck
 - Mouth
 - Salivary Glands
 - Throat
 - Thyroid
 - Tongue
- Hematology
 - Blood
 - Lymph nodes
- Lung
 - Including mesothelioma
- Melanoma
- Phase I
- Sarcoma
 - Bone
 - Connective tissues
 - Soft tissues

A list of clinical trials currently offered at the Juravinski Cancer Centre can be found under [Find a Trial](#).

For an up-to-date list of all cancer clinical trials available in Ontario, including the Juravinski Cancer Centre, please visit the [Ontario Institute of Cancer Research \(OICR\)](#).
