

Personal Reasons

- By considering all of your options, you are taking an active part in decisions affecting your life.
- It is a chance to receive a new, innovative, experimental treatment or intervention which might not be available otherwise.
- It is a chance to feel better and live longer.
- If the new treatment or intervention is proven to work, you may be among the first to benefit.
- You could improve cancer treatments and interventions in the future and leave a lasting legacy.
